

§ 1415.6

(ii) Contains historical or archeological resources, or

(iii) Would address issues raised by State, regional, and national conservation priorities.

(c) Incidental lands, in conjunction with eligible land, may also be considered for enrollment to allow for the efficient administration of an easement or rental contract. Incidental lands may include relatively small areas that do not specifically meet the eligibility requirements, but as a part of the land unit, may contribute to grassland functions and values and related conservation values, or its inclusion may increase efficiencies in land surveying, easement management, and monitoring by reducing irregular boundaries.

(d) Land will not be enrolled if the functions and values of the grassland are already protected under an existing contract, easement, or deed restriction, or if the land already is in ownership by an entity whose purpose is to protect and conserve grassland and related conservation values. This land becomes eligible for enrollment in GRP if the existing contract, easement, or deed restriction expires or is terminated, and the grassland values and functions are no longer protected.

(e) Land on which gas, oil, earth, or other mineral rights exploration has been leased or is owned by someone other than the applicant may be offered for participation in the program. However, if an applicant submits an offer for an easement project, USDA will assess the potential impact that the third party rights may have upon the grassland resources. USDA reserves the right to deny funding for any application where there are exceptions to clear title on the property.

§ 1415.6 Participant eligibility.

To be eligible to participate in GRP, an applicant, except as otherwise described in §1415.17:

(a) Must be a landowner for easement participation or be a landowner or have control of the eligible acreage being offered for rental contract participation;

(b) Agree to provide such information to USDA that is necessary or desirable to assist in its determination of eligibility for program benefits and for

7 CFR Ch. XIV (1–1–11 Edition)

other program implementation purposes;

(c) Meet the Adjusted Gross Income requirements in 7 CFR part 1400 of this title, unless exempted under part 1400 of this title;

(d) Meet the conservation compliance requirements found in part 12 of this title; and

(e) Comply with applicable registration and reporting requirements of the Federal Funding Accountability and Transparency Act of 2006 (Pub. L. 109–282, as amended) and 3 CFR parts 25 and 170.

§ 1415.7 Application procedures.

(a) Applicants, except as otherwise described under §1415.17, may submit an application through a USDA Service Center for participation in GRP. Applications may be submitted throughout the year.

(b) By filing an application for participation, the applicant consents to a USDA representative entering upon the land offered for enrollment for purposes of assessing the grassland functions and values and for other activities that are necessary for USDA to make an offer of enrollment. Generally, the applicant will be notified prior to a USDA representative entering upon their property.

(c) Applicants submit applications that identify the duration of the easement or rental contract for which they seek to enroll their land. Rental contracts may be for the duration of 10-years, 15-years, or 20-years; easements may be permanent in duration or for the maximum duration authorized by State law.

§ 1415.8 Establishing priority for enrollment of properties.

(a) USDA, at the national level, will provide to NRCS State Conservationists and FSA State Executive Directors, national guidelines for establishing State-specific ranking criteria for selection of applications for funding.

(b) NRCS State Conservationists and FSA State Executive Directors, with advice from State Technical Committees, establish criteria to evaluate and rank applications for easement and rental contract enrollment, including
